

Beginning on April 11, 2022, weather permitting, the Town's contractor, Ricciardi Brothers Inc., will be starting the Boylston Circle water main replacement project. To complete this work safely, Boylston Circle will be closed Monday-Friday between Gulf Street and Boylston Street near the entrance to Mountain View Cemetery. Please follow the detour route. The road closure area will change as the project progresses. The replacement of the water main on entire length of Boylston Circle is expected to be done in November 2022
